

SANTINO LARLUZ

Full Stack Web Developer

Mar del Plata, Argentina | santinoflash@gmail.com | +54 9 223 534-2460

[Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full stack developer with over 3 years of experience delivering web solutions for clients in Argentina and Europe. Experienced building administrative platforms, e-commerce sites and corporate websites using Laravel, PHP, React, WordPress and MySQL. Comfortable working remotely with teams and involved in every stage of development, from design to production deployment. Open to new opportunities, remote or on-site.

EXPERIENCE

Full Stack Developer — Freelance | Self-employed

2022 — Present

- Designed and developed a complete e-commerce website for a furniture retailer (romeososa.com), covering front-end, product catalog and store setup.
- Built a custom admin platform in Laravel for managing truck and bus model listings for a Volkswagen commercial vehicles client.
- Delivered WordPress websites and ongoing content management (pages, images, copy updates) for Aken Hotels.
- Provided data entry services and database handling (MySQL, basic DataTables integration) for multiple clients.
- Handled visual content for client websites: image editing, basic logo and graphic design, and layout adjustments.
- Managed hosting, deployment and ongoing maintenance for client sites (cPanel/Plesk), and used Git/GitHub for version control.

Web Developer | Beenaria (Spain)

3 years

- Developed and maintained multiple web projects for this Spain-based company over more than three years as an external collaborator.
- Worked across front-end and back-end tasks depending on project needs, coordinating remotely with an international team.
- Implemented features in Laravel and WordPress, including WooCommerce functionality, plugin/theme customization (Elementor), and REST API integrations.
- Applied basic on-page SEO practices and gained solid experience in remote collaboration, deadlines, and adapting to different client requirements.

KEY PROJECTS

- BookedKit — Online booking platform for tours and activities. Stack: React, PHP, MySQL.
- Romeo Sosa (romeososa.com) — Full e-commerce site for a furniture retailer, from catalog to deployment. Stack: HTML5, PHP.
